ServiceMASTER Clean®

Above & Beyond

Making learning environments Greener, Cleaner, Healthier & Safer

With infection control and the safety and welfare of children being a top priority for every school and college you can be assured that in selecting ServiceMaster Clean as your school cleaning service provider you are selecting a company with a tried and tested solution. For many years we have provided education cleaning services to a selection of educational environments catering for pupils of all age groups and circumstances.

As part of our experience we have developed cleaning systems that go beyond a “traditional” service and have allowed us to improve cleaning and air quality, productivity and reduce the costs associated with cleaning. This cleaning system is known as “Capture & Removal” and incorporates processes to trap and remove air borne contaminants. Specialist floor care programmes also provide an important part of our system. Our team of qualified technicians offer a wealth of experience to provide quality finishes using the latest in machinery technology and chemical products that offer completely “green” options or containing ingredients such as Hygienilac which prevents bacteria access to nutrients.

Important too are our security measures that set us apart as an education cleaning service provider you can be assured that every member of the team responsible or with a role to play at your facility will be CRB checked to enhanced level and you will be updated with every change as it takes place.

BENEFITS FOR YOUR SCHOOL

- In selecting ServiceMaster Clean you are selecting specialist providers to the education sector
- Improve Indoor air quality
