ServiceMASTER Clean®

Above & Beyond

CAPTURE & REMOVAL

ONE DAY, ALL BUILDINGS WILL BE CLEANED THIS WAY

In our commitment to doing business the right way and turning ordinary tasks into extraordinary service, ServiceMaster Clean offers you our unique patent-pending CAPTURE AND REMOVAL CLEANING SYSTEM.

More efficient. More effective.

Our unique approach to cleaning combines new equipment and technology and carefully researched cleaning processes. The benefits to your business are numerous, not least a higher quality cleaning service with a surprising cost saving.

The Capture and Removal Cleaning System can help your business reap the following benefits:

- Reduces absenteeism
- Lower operating costs
- Positive environmental benefits
- Reduction in cleaning time by up to 25%
- Improved indoor air quality – 55% more airborne particles are removed this way than traditional cleaning

SAVES TIME AND MONEY CAN ALSO MAKE YOU FEEL BETTER.

It's a fact that we spend 90% of our time inside and, according to the EPA, contaminants are typically 2 to 5 times worse inside than out. To make matters worse, experts estimate that 50% of all illnesses are caused or aggravated by polluted indoor air[1].

Efficient, effective Capture & Removal Cleaning. Another extraordinary service from ServiceMaster Clean.

How capture and removal cleaning works.

This exclusive system employs:

- Our proprietary Green For® suite of cleaning products
- A highly productive team cleaning process developed and perfected by ServiceMaster Clean®
- Quiet, high-filtration vacuums that capture 99.9% of particles smaller than one micron in size
- Our patent-pending dust wand and microfibre technologies that collect dust and dirt rather than just moving it around
